WE OFFERING

- Bolt
- Nut
- Screw
- Nails
- Washers
- All Types of Industrial & Builder Hardware

BOLT

Types of Bolt

- Anchor bolt
- Carriage bolt
- Elevator bolt
- Flange bolt
- Hanger bolt
- Hexagon bolt/Tap bolt
- Huck bolt
- Lag bolt
- Machine bolt
- Plow bolt
- Sex bolt
- Square head bolt
- Stud bolt
- Timber bolt
- T-head bolt
- Toggle bolt
- U-bolt

BOLT

- Usage of Bolt

Bolts are typically used to hold materials or objects together, or to position objects. The chamfer at the opposite end of the head provides a slightly beveled edge which helps with inserting the bolt into holes and nuts.

- Size of Bolt

Common threads per MM sizes are:
M4, M4-1/2, M5, M5-1/2, M6, M7, M8, M9, M10, M11, M12, M13, M14, M16, M18, M20, M24, M28, M32, M36, M40, M48, M56, M72, M80.

NUT

Types of Nut

- Hexagonal Nut
- Square Nut
- Cap Nut
- Flange Nut
- Dome Nut
- Capstan Nut
- Ring Nut
- Knurled Nut
- Thumb Nut
- Wing Nut

NUT

- Usage of Nut

Nuts are usually circular in shape, with threads inside, used to hold a bolt and help fasten things together. Nuts can never be used without a bolt. Nuts and bolts are held together by the combination of friction of their heads, slight stretch of the bolt and the compression of the part.

- Size of Nut

Common Nut per MM sizes are: M1.6, M2, M2.5, M3, M4, M5, M6, M8, M10, M12, M14, M16, M20, M24, M30, M36, M42, M48, M56, M64.

SCREW

Types of Screw

Carriage bolts
Decking screws
Double ended screws
Drywall screws
Eye bolt screws
Framing screws
Fillister head screws
Hex cap screws
Hammer drive screws
Lag screws
Machine screws
Masonry screws
Oval head screws

Pan-head screws
Particle board screws
Square head bolts
Self-drilling screws
Set screws
Shoulder screws
Sheet metal screws
Socket-head screws
Thread cutting screws
Washer-faced screws
Wood screws
Weld screws
Tamper-proof screw

SCREW

- Usage of Screw

The screw is a short and sharp-pointed metal tip having helical threads running around its long shaft with a slotted head, which are used to join objects together by twisting them. Screws are types of fasteners, which are used to fasten materials using tools such as hammers or screwdrivers.

- Size of Screw

Common Screw per MM sizes are: M4, M4-1/2, M5, M5-1/2, M6, M7, M8, M9, M10, M11, M12, M13, M14, M16, M18, M20, M24, M28, M32, M36, M40, M48, M56, M72, M80.

The background of the slide is a dark, textured image showing a large pile of various metal fasteners, including washers, bolts, and nuts, in shades of blue and grey.

WASHERS

Types of Washers

Flat Washer

Spring Washer

Internal Tooth Washer

External Tooth Washer

Overlap Washer Internal

Overlap Washer External

Two Tongue Washer

Taper Washer

Disc Spring Washer

Nord-Lock Washer

Cup Washer

Contact Washer

Wave Washer

Curved Washer

Serrated Locked Washer for Falt HD Screw

Contact Washer with Pilot Point

Conical Spring Washer

WASHERS

- Usage of Washers

Washers have traditionally been used to protect the joint surface from damage during the tightening process and to distribute the load under the bolt head and nut. The stress under the face of a standard hexagon headed nut can result in indentation into standard strength steel surfaces.

- Size of Washers

Common Screw per MM sizes are: M1.6, M2, M2.5, M3, M3.5, M4, M5, M6, M7, M8, M10, M12, M14, M16, M18, M20, M22, M24, M27, M30, M33, M36, M39.

NAILS

- Types of Nails

Common Nail

Framing Nail

Sinker Nail

Decking Nail

Masonry Nail

Roofing Nail

Spiral Shank Nail

Hanger Nail

Duplex Nail

Cap Nail

Pole Barn Nail

Drywall Nail

Pin Nail

Panel Board Nail

Finishing Nail

Flooring Nail

Furniture Nail

A large pile of nails, showing various sizes and orientations, filling the right half of the slide.

NAILS

- Usage of Nails

Nails are most commonly used to fasten pieces of wood together, but they are also used with plastic, drywall, masonry, and concrete. Nails are usually made of steel but can also be made of stainless steel, iron, copper, aluminum, or bronze.

- Size of Nails

Common Nails sizes are: 2d, 3d, 4d, 5d, 6d, 8d, 10d, 12d, 16d, 20d, 30d, 40d, 60d.

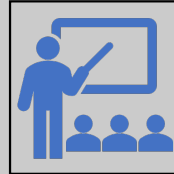

PACKGING

- We Offer Customized Packing.
- Size, Type Of Packing for products – 25/50 Kg To 1000 Kg Jumbo Bags.
- We ensure customized packaging as per our client's requirement and meet the stipulated time frame.
- Standardized packaging materials are used by us that retains fragrance, property and extends higher shelf life of all products.

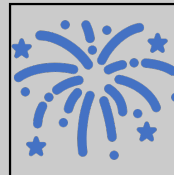

QUALITY ASSURANCE

- The satisfaction of our clients is our prime concern.

- Judge us on the quality of our products, and not the quantity of our paperwork.

- We believe that once a contract is signed it is sacrosanct. We take great pride in delivering the right goods at the right price and at the right time. We understand this to be the definition of quality.

WHY US?

- International Quality Standards
- Believe and Work for CUSTOMER SATISFACTION
- Delivery Goods Just in Time.

Our Company Registered with

- DGFT (Directorate General of Foreign Trade)
- MSME (Udyog Aadhaar)
- GST Portal
